noatum automotive & ro-ro

Noatum Automotive & Ro-Ro offers a comprehensive global service for the car and Ro-Ro business of the Noatum Group, using the high expertise of the different business areas and taking advantage of the synergies of **Noatum's** three business units.

The company's strategy is based on a complete neutrality towards shipping lines and agents, logistics operators and manufacturers to preserve total confidentiality and independence.

Through the commitment, effort and professionalism of our human team, this strategy allows us to be one of the leading international logistics divisions specialized in the global operations of new and used vehicles, machinery, breakbulk cargo, towage units and any other mobile cargo.

BARCELONA - Autoterminal *

Autoterminal Barcelona is the vehicle logistics platform for Mediterranean countries and the rest of Europe. Located in the Port of Barcelona, autoterminal Barcelona is the intermodal transport centre for vehicles by sea, rail and road

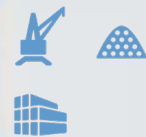

TARRAGONA - Noatum Terminal Tarragona *

Stevedoring company that offers ship loading and unloading services as well as storage for agricultural products and general cargo

CASTELLÓN - Noatum Terminal Castellón

Noatum Terminal Castellón provides a full one-stop-shop service for general cargo, container and dry bulk cargo handling services in the port of Castellón. Located in the Spanish tile producing centre, the terminal's staff is specialised in handling delicate cargoes.

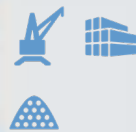

SAGUNTO - Noatum Terminal Sagunto *

Noatum Terminal Sagunto was established in 1990 and operates the largest multi-purpose terminal at the Port of Sagunto.

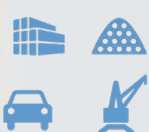

CARTAGENA - Terminal Marítima de Cartagena (TMC)

A stevedoring company operating multipurpose facilities focused primarily on containerized goods and project cargo. The only stevedoring company, among all docks in Santa Lucía, with covered port warehouses..

MÁLAGA - Noatum Terminal Málaga *

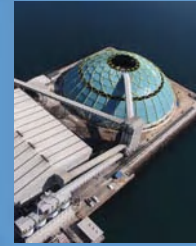

Noatum Terminal Málaga enjoys a strategic location for the handling of all types of cargoes in the South of Spain. It is a sheltered port with a nonstop service for clients and great ability to adapt to its needs..

 CONTAINER
  BULK
  AUTOMOTIVE
  REEFER
  MULTIPURPOSE

**HUELVA - AGP**

Services for loading and unloading, stowing and unstowing vessels.

**A CORUÑA - Terminales Marítimas de Galicia (TMGA)**

Multipurpose and bulk terminal specialised in cereal warehouses and general cargo sheds. It has automated facilities for dry bulk cargo imports and handles containers for local importers and exporters.

**FERROL - Terminales Marítimas de Galicia (TMGA)**

Multipurpose terminal specialised in project cargo. The region is a renowned centre of activity for green energy generated via wind farms and TMGA is an integral part of the regional wind farm supply chain.

**AVILÉS - AGP**

Terminal specialized in metalworking products, general cargo, projects and bulk cargo.

**GIJÓN - AGP**

Terminal specialized in metalworking products, general cargo, projects and bulk cargo.

**SANTANDER - Noatum Terminal Santander ***

The terminal offers an efficient handling for all cargoes with modern machinery and the latest IT systems for satisfying the highest demands of our customers. *: It runs an encapsulated solid bulk terminal eco-friendly for fossil dry bulks and also a soda ash bulk expedition terminal fully automatized.

 CONTAINER
  BULK
  AUTOMOTIVE
  REEFER
  MULTIPURPOSE

**BILBAO - Servicios Logísticos Portuarios (S.L.P.)**

Stevedoring company specialized in bulk, steel products, project cargo and general cargo. It has all the human and material resources to handle 3 M tonnes per year and extensive outdoor and undercover storage, with status of bonded warehouse and license of London Metal Exchange

**PASAJES - Noatum UECC Terminal Pasajes ***

Noatum UECC is a multimodal terminal dedicated to vehicles, H&H and general cargo on trailer handling arriving to terminal through vessel, truck or rail.

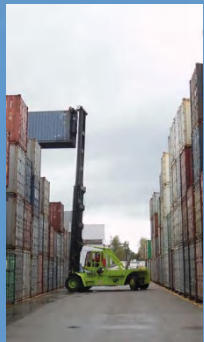

**KHALIFA PORT- Autoterminal ***

Autoterminal Khalifa Port is a joint venture between Autoterminal Barcelona and Abu Dhabi Ports. Located in Abu Dhabi, UAE, Autoterminal Khalifa Port is a dedicated car terminal providing unparalleled service in the Middle East to the main players in vehicle logistics

**BARCELONA - Progeco España**

Depot of empty containers for exportation that also offers customers a full tuning service: inspection, cleaning and repairing normal, reefer or tank containers, among others. In addition, we have a supply of second-hand containers at reduced rates, which are ideal as one-use containers for exportation or for alternative uses of transportation (storage, building, etc.).

**132,000 sqm****VIGO - Progeco Vigo**

Progeco Vigo, S.A. started in 1994 and was the first container depot in the Port of Vigo. At present, Progeco Vigo is a leading company in this port, not only in container storage but also in consolidating containers, in lashing special cargo in platform containers and in selling second-hand sea containers.

**54,000 sqm****CASTELLÓN - Fricasa Noatum Reefer Terminal**

A specialised reefer terminal with capacity of 7,500 pallet spaces for perishable cargoes. Fricasa is the main terminal for the export of locally produced Clementine oranges, as well as for citrus imports from South Africa & South America.

**11,000 sqm**
Reefer
warehouses**CASTELLÓN - G&T Port**

This company provides specialized services to shipping companies and logistics operators such as maintaining and repairing dry, reefer or tank containers, as well as maintaining and repairing port machinery. They are also highly renowned specialists in services for lashing and consolidating special goods in containers or other types of means of transport.

**11,000 sqm****BILBAO - Progeco Bilbao**

Since 1985, Progeco Bilbao S.A. has been a leading company in integrated logistics services for the commercial and industrial sector, for any need related with containers, storage and transport.

**60,000 sqm****VIGO - Vigo Fresh Port**

Vigo Fresh Port offers services and solutions to speed up the logistics process and the inspections that Plant Health and Border Health carry out on any type of perishable goods (fruit, vegetables and flowers) that come to and from Vigo.

**1,000 sqm**
Reefer
warehouses

**CASTELLÓN - LEATRANSA**

Leatransa performs logistics operations and storage of solid and liquid bulk in the Port of Castellón, moving more than 200 thousand tons throughout the year.

**52,000 sqm**

Solid & liquid
bulk warehouse

**HUELVA - LEATRANSA**

Terminal for storage and shipping of liquid bulk cargoes and loading and unloading wharf in the Outer Port of the Service area of the Port of Huelva, moving more than 27 thousand tons throughout the year.

**21,500 sqm**

Liquid bulk
warehouse

Portsys is the state-of-the-art Noatum Terminals in-house software.

INTEGRATED PROCEDURES

- Maritime Operations
- Land Operations (Truck and train)
- Added Value Services
- Customs Management
- KPI Management and analytics
- Invoicing / Cost Management

INTERNAL AND EXTERNAL COMMUNICATION

- **EDI Connection adapted to our customer requirements**
- **Able to send in/out and stock in real time**
- **On-Line access to our system**
- Real-time connection with Customs platform
- Handheld devices using own Software for data transmission

CONCLUSIONS

- 28 years of experience across 10 multipurpose terminals
- Adaptable to any kind of terminal and operative process
- Present in all the key processes
- Working in real time and using high technology
- Easy to connect with any communication program
- Continuous improvement and experienced professionals
- Stock Management. AEO and ADT requirements compliance
